Lahore, Punjab, Pakistan

hananyellowweb1.vercel.app

SKILLS

- MERN Stack (React, Node.js)
- JavaScript (ES6+), C++, Python
- Data Structures & Algorithms
- RESTful APIs & Database Design
- Git & Version Control

LANGUAGES

- English (Professional/Fluent)
- Urdu (Native)
- Punjabi (Native)

ACHIEVEMENTS

- 30+ LeetCode Challenges Solved
- Deployed Full-Stack LMS & E-commerce Apps

PROFILE

Goal-oriented Full-Stack Developer with a strong foundation in the MERN stack and a passion for building scalable web applications. Proficient in C++ and Python, with a deep interest in Data Structures and Algorithms. Proven track record of developing end-to-end projects, from complex database schemas to seamless frontend integration.

TECHNICAL PROJECTS

Learning Management System (LMS)

1. Engineered an end-to-end LMS to manage educational content, student enrollment, and course tracking.
2. Integrated frontend and backend systems to support real-time data updates and role-based access control.
3. Optimized server-side logic to handle complex data relationships efficiently.
4. Documented the entire system architecture in a professional README, facilitating easy deployment on cloud platforms.

E-commerce Web Application

1. Architected a full-stack e-commerce platform with comprehensive CRUD functionality for product and user management.
2. Implemented secure user authentication and authorization using JSON Web Tokens (JWT).
3. Developed a scalable backend using Node.js and Express, with MongoDB for flexible data storage.
4. Designed a responsive and intuitive UI using React.js to ensure a seamless shopping experience across all devices.

Algorithmic Problem Solving (LeetCode)

1. Solved 10+ high-level challenges on LeetCode using C++, focusing on optimized time and space complexity.
2. Applied advanced Data Structures and Algorithms (DSA) like Trees, Graphs, and Dynamic Programming to solve real-world logic problems.

EDUCATION

Bachelor of Science in Computer Science (BSCS) 2026 – Present
Virtual University of Pakistan

Successfully solved 10+ high-performance algorithmic challenges on LeetCode using C++.
